ABOUT

Product Manager / Product Owner and No-Code Developer with 3+ years leading end-to-end delivery for web and mobile apps, working remotely for clients in the U.S. and Madagascar. Skilled in Bubble.io, Agile/Scrum, and Figma prototyping — turning stakeholder needs into intuitive, well-documented products. Professional fluency in English and French.

EXPERIENCE

Product Owner / QA Lead

Jan 2026 – May 2026

[Here2Be](#)

- Directed migration of a Bubble.io app to a Xano backend with a vibe-coded frontend, boosting performance and scalability.
- Scoped a 50-story, 9-epic backlog across a 20-sprint roadmap and led QA and full Agile/Scrum ceremonies.

Project Manager

Mar 2025 – Sep 2025

[Micasa](#)

- Led a 4-person team over ~7 months to design and deliver a mobile event-management app from concept to launch.
- Managed sprints via Huly.io and drove backlog grooming, acceptance criteria, and weekly stakeholder reporting.

Project Manager & Lead Developer

2023 – 2026

[Genhax](#)

- Architected a hackathon platform (~50–200 participants) with workflows, messaging, dashboards, and mentor tools.
- Designed responsive multi-role UIs with reusable component libraries and wrote UI copy to improve usability.
- Vibe-coded the platform with Next.js and Supabase.

Project Manager & No-code Developer

2024 – 2025

[The Parity Productions](#)

- Built a job-seeking platform for underrepresented communities: job search, profiles, messaging, CRM, admin panel.
- Managed the full project lifecycle, applying MoSCoW prioritization to align scope with deadlines.

Intern Java / React Developer

2022 – 2023

[UGD Madagascar](#)

- Developed a face-recognition module for a Java enterprise application and built interactive quiz features in React.
- Participated in Agile sprints and contributed to BPM process modeling with Bonita Studio.
